
U.S. Fencing Junior/Cadet Individual National Medalists by Year

Fencing started holding age-restricted events for junior fencers during the Summer Nationals in 1966 so as to help select team members to send to the Junior World Championship the following April. It was soon realized that this was too soon before those championships and so a competition called the Junior Olympics to be held in February was started in 1972. No junior events were held at the 1982 Summer Nationals because the venue was small.
